PROFESSIONAL SUMMARY

Mobile software developer with 8+ years of experience since November 2017, specializing in native iOS development with Swift, Objective-C, UIKit, and SwiftUI. Experience includes food ordering, delivery tracking, payment integration, local persistence, testing, and App Store releases. Background in MVC and MVVM architecture, REST API integration, debugging, and collaboration with product and backend teams. Based in Dubai and seeking senior iOS or mobile engineering opportunities.

TECHNICAL SKILLS

iOS: Swift, Objective-C, SwiftUI, UIKit, Auto Layout, Core Data, Core Animation, MapKit, GCD

Architecture and integration: MVC, MVVM, VIPER, OOP, REST APIs, JSON, URLSession, SQLite

Quality and delivery: XCTest, unit and UI testing, Firebase Crashlytics, Analytics, Git, Jira, Agile, Xcode, CocoaPods, App Store release workflows

Additional mobile platforms: Android/Kotlin, Flutter/Dart, React Native; Firebase, push notifications, deep links, payment integrations

PROFESSIONAL EXPERIENCE

GCC Ginco Sharjah LLC | UAE

Senior iOS Developer | Jul 2025 – Present

- Develop an attendance application and construction ERP workflows at GCC Ginco Sharjah.
- Develop and maintain mobile applications, integrating REST APIs and third-party services with backend teams.
- Handle testing, debugging, application maintenance, and mobile release activities across the development lifecycle.

Seldom | Tamil Nadu, India

iOS Application Developer | Apr 2022 – Jul 2025

- Built native iOS features in Swift and Objective-C, using MVC and MVVM to structure maintainable application code.
- Implemented UIKit and Auto Layout interfaces and SQLite persistence for local data storage and retrieval.
- Used Grand Central Dispatch to move concurrent work off the main thread and improve application responsiveness.
- Integrated Firebase Crashlytics and Analytics; maintained unit and UI tests and refactored legacy Objective-C code.
- Reviewed code, supported junior developers, and collaborated with cross-functional teams through Agile delivery.

Hoffensoft | Coimbatore, India

iOS Developer | Jun 2021 – Mar 2022

- Developed Papa Murphy's iOS ordering features, including order placement, curbside pickup, payment integration, and order tracking.
- Used Swift, Objective-C, MVVM, UIKit, Core Data, and URLSession to implement application features and backend connectivity.
- Contributed to requirement analysis, sprint planning, code review, and quality assurance.

Trioangle Technologies | Madurai, India

iOS Developer | Apr 2019 – Jun 2021

- Developed GoferDeliveryAll and GofereatsKiosk applications, including delivery tracking, ordering, and restaurant workflows.
- Integrated Firebase, REST APIs, Core Data, MapKit, push notifications, and deep links.
- Built adaptive UIKit interfaces, improved responsiveness with GCD, and supported App Store releases.

Proloon Infotech | Chennai, India

iOS Developer | Nov 2017 – Mar 2019

- Developed My Agthia water-delivery and FoodStar food-delivery applications using Swift and Objective-C.
- Implemented Storyboard and Auto Layout interfaces, payment gateways, maps, and offline functionality.
- Managed App Store submission and release activities; organized reusable modules using MVC and CocoaPods.

SELECTED PROJECTS

- Papa Murphy's — Food ordering and curbside pickup. iOS development using Swift, Objective-C, MVVM, Core Data, and backend integrations.
- GoferDeliveryAll and GofereatsKiosk — Delivery and restaurant applications. Implemented mobile workflows, persistence, maps, Firebase integration, and release support.
- My Agthia and FoodStar — Water and food delivery applications. Developed interfaces, integrated payments and location services, and supported App Store submissions.

EDUCATION AND CERTIFICATIONS

Diploma in Electronics and Communication Engineering | AMS College of Engineering, Chennai | 2008

HackerRank: Swift, Problem Solving, REST API | TestDome: iOS Development

Languages: English, Tamil, Hindi, Malayalam
